SUMMARY

Content designer and UX researcher who makes complex services clear and calm. Rewrote a police cybercrime website in plain language (reading ease 16 to 64), audited Toronto's 311 help pages, and tests ideas with interviews and usability studies. Brings brand voice work from managing client brands at Revolution X Studio, and real-world service insight from the City of Toronto and Amazon.

EXPERIENCE

Senior Manager · Revolution X Studio — Present

- Manage multiple clients' brands, websites and social media, including Zatch and the Telangana Cyber Security Bureau; lead the delivery team, assigning and reviewing work.
- Led research and content strategy for the TGCSB citizen website and two national event sites (CipherCop 2025, SHIELD 2026); benchmarked 5 cybercrime agencies and planned the sitemap and prototype.
- Rewrote public-facing copy in plain language, raising reading ease from 16 to 64 (Flesch).
- Plan and run client social content on Instagram, LinkedIn and Facebook: calendars, posts, reels, carousels and captions.

Customer Service Representative, Client Services & Permits · City of Toronto — Apr 2023 – Present

- First point of contact for residents and councillors' offices on permits, bookings and program registrations.
- Process and review permits and bookings in ActiveNet, SharePoint and CLASS for accuracy and policy compliance.
- Report on facility use, attendance and service requests for divisional planning; write to AODA and MFIPPA standards.

Transaction Risk Investigator · Amazon — Apr 2022 – Mar 2023

- Investigated high-volume fraud cases using Salesforce, Nautilus and Excel.
- Cut case turnaround time by 20% through root-cause analysis and streamlined workflows.

SELECTED PROJECTS

- **TGCSB plain-language rewrite**: reading ease raised from 16 to 64 on a cybercrime reporting site for stressed victims.
- **HopIn carpooling app** (Centennial, 2024): 7 interviews, 25 surveys, 4 personas, 7 usability tests; cut 2 steps from booking; Figma prototype.
- **311 Toronto UX audit** (self-initiated): heuristic review of the City's help page with 3 prioritized fixes.
- **Bot About TO**: City of Toronto Data & AI Innovation Challenge, Aug 2025. On a cross-division team of 4, led user research and content strategy for an AI messenger linking council activity to open data; tested with real prompts.

Case studies: suszk.github.io
